EDUCATION –

Sep 2020 – Jul 2023: **Birmingham City University (BSc Computer Science)**
- ➢ **Grade:** *First-Class*
- ❖ *Key modules: Website Development and Design, Mathematics and Declarative Programming, Artificial Intelligence and Machine Learning, User Experience Design, Object Oriented Programming, Software Design, Operating Systems, Mobile Application Development.*
- ❖ *For my final year individual honours project, I developed a voice-controlled universal TV remote utilizing Bluetooth technology, enabling control through a mobile app. This project aimed to provide an economical option for those without access to a smart TV.*

Sep 2017 – Jul 2020: **Sandwell College (BTEC Level 3 Computer Games Design and Development)**
- ➢ **Grade:** *DDM*
- ❖ *Key modules: Database Design and Development, Software Project, Animation Design and Development, Information Systems, Games Technology, Spreadsheet Modelling, Mobile Application Development, and Website Development.*
- ❖ *For my final year project, I worked in a team of three to create a 2D side-scrolling adventure platformer called "Hida's Adventures" using C# on the Unity game engine. It drew inspiration from games like Celeste, Mario Bros, and Shovel Knight, with largely their pixelated theme.*

Sep 2012 – Jul 2017: **Holly Lodge High School of Science**
- ➢ **Grade:** *6 GCSEs including English, Mathematics and ICT.*
- ❖ *Obtained an ECDL Qualification by demonstrating my knowledge of Microsoft Office applications such as Word, PowerPoint, Excel, and Access.*

SKILLS –

- ➢ **Technical Skills:** *HTML, CSS, JavaScript, Python, React.JS.*
- ➢ **Tools:** *Figma, Postman, Git, GitHub, and Bash CLI.*
- ➢ **Soft Skills:** *independence, teamwork, communication, time management, creativity problem-solving, critical thinking, communication, attention to detail, and continuous learning.*
- ❖ *Experienced in working individually and within team-based environments from past work experience and educational modules.*
- ❖ *Experienced in developing many websites, games, software, mobile app, web app, and a physical device. These projects can be viewed on my portfolio.*

❖ *Creative, diligent, and motivated individual who thrives on challenges as they provide opportunities to acquire new skills.*

WORK EXPERIENCE –

Jan 2020 – Jan 2020: **Spon Lane Superstore (West Bromwich)**
  ➢ **Skills Showcased:** *independence, customer service, and communication.*
  ❖ *Attended for work experience week, where I worked independently under supervision.*
  ❖ *Operating the cash register and bagging the customer's items.*

Dec 2018 – Dec 2018: **Sense Charity Shop (West Bromwich)**
  ➢ **Skills Showcased:** *teamwork and communication.*
  ❖ *Attended for work experience week, where I worked with a team of four.*
  ❖ *Unloading new heavy products and transporting them into the stockroom*
  ❖ *Disposing, pricing/repricing, cleaning, unboxing, and stocking them on the shop floor shelves.*

Sep 2016 – Sep 2016: **ASDA (Oldbury)**
  ➢ **Skills Showcased:** *teamwork, independence, communication, customer service.*
  ❖ *Attended for work experience week, where I worked independently and within a team of five.*
  ❖ *Unboxed and stocked new products on the shop shelves in the floor frozen section.*
  ❖ *Assisting customers with answering questions and leading them to the location of a product.*

HOBBIES AND INTERESTS –

❖ *Dedicated to my goal of becoming a software engineer/developer. I consistently practice my programming skills and build multiple projects every month, all of which are showcased on my portfolio. I'm determined to continually hone and acquire new skills.*
❖ *Passion for technology in terms of both in software and hardware. This passion has driven me to pursue a computer science degree, where I can further explore and engage with this field.*
❖ *Enjoyer of watching movies/TV-shows, gaming, biking, and skateboarding.*
